

Danforth Creek Bridge Repair Project

FM#: 430617-1-52-01

OPEN HOUSE JULY 14, 2016

On Thursday, July 14, 2016, the Florida Department of Transportation (FDOT) will host an informational Open House for the bridge repair project at Danforth Creek Bridge on Martin Downs Boulevard (State Road 714) between Immanuel Drive and Mapp Road.

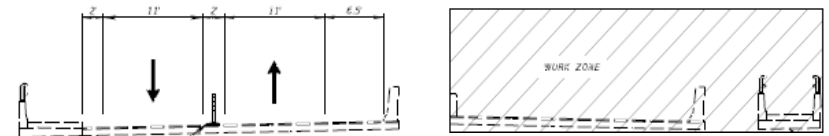

The Open House will be held from 4:30 PM until 6:30 PM at the Stuart/Martin County Chamber of Commerce, 1650 S. Kanner Highway, Stuart, FL 34994. The Chamber is not sponsoring this event. Project personnel will be on hand to discuss the scope of work, construction schedule, and address questions and comments one-on-one. No formal presentation will be made.

This project is expected to begin July 18, 2016, and is anticipated to be completed by early 2017, weather permitting. The cost for construction is \$1.18 million. Work will be performed by Morrison-Cobalt JV, with FDOT overseeing the project. Work on this project includes: providing slope protection/channel lining to prevent further erosion, repairing the bridge slabs to prevent rotational movements, and repairing the existing sidewalk on the south side of the bridge.

Maintenance of Traffic: In order to do this work safely, it will be necessary for travel lanes to undergo an around-the-clock full closure. Work will be done in phases to minimize impacts to residents, businesses and the motoring public.

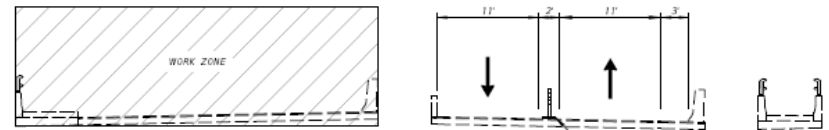

Phase I: Late July 2016 through October 2016 - Eastbound travel lanes on Martin Downs Boulevard between Mapp Road and Immanuel Drive will be closed. Eastbound traffic will be diverted to the westbound travel lane, reducing traffic to one lane in each direction. During this time the eastbound sidewalk will be closed and pedestrians must cross Martin Downs Boulevard at Matheson Avenue or Mapp Road.

Phase I: Eastbound Bridge Closure

Phase II: October 2016 through January 2017 - Westbound travel lanes on Martin Downs Boulevard between Mapp Road and Immanuel Drive will be closed. Westbound traffic will be diverted to the eastbound travel lane, reducing traffic to one lane in each direction. During this time the westbound sidewalk will be closed and pedestrians must cross Martin Downs Boulevard at Matheson Avenue or Mapp Road.

Phase II: Westbound Bridge Closure

For additional information regarding this upcoming construction project, please contact Kathleen Dempsey, Project Public Information Officer, at (772) 359-5118, kdempsey@corradino.com, or visit www.d4fdot.com.

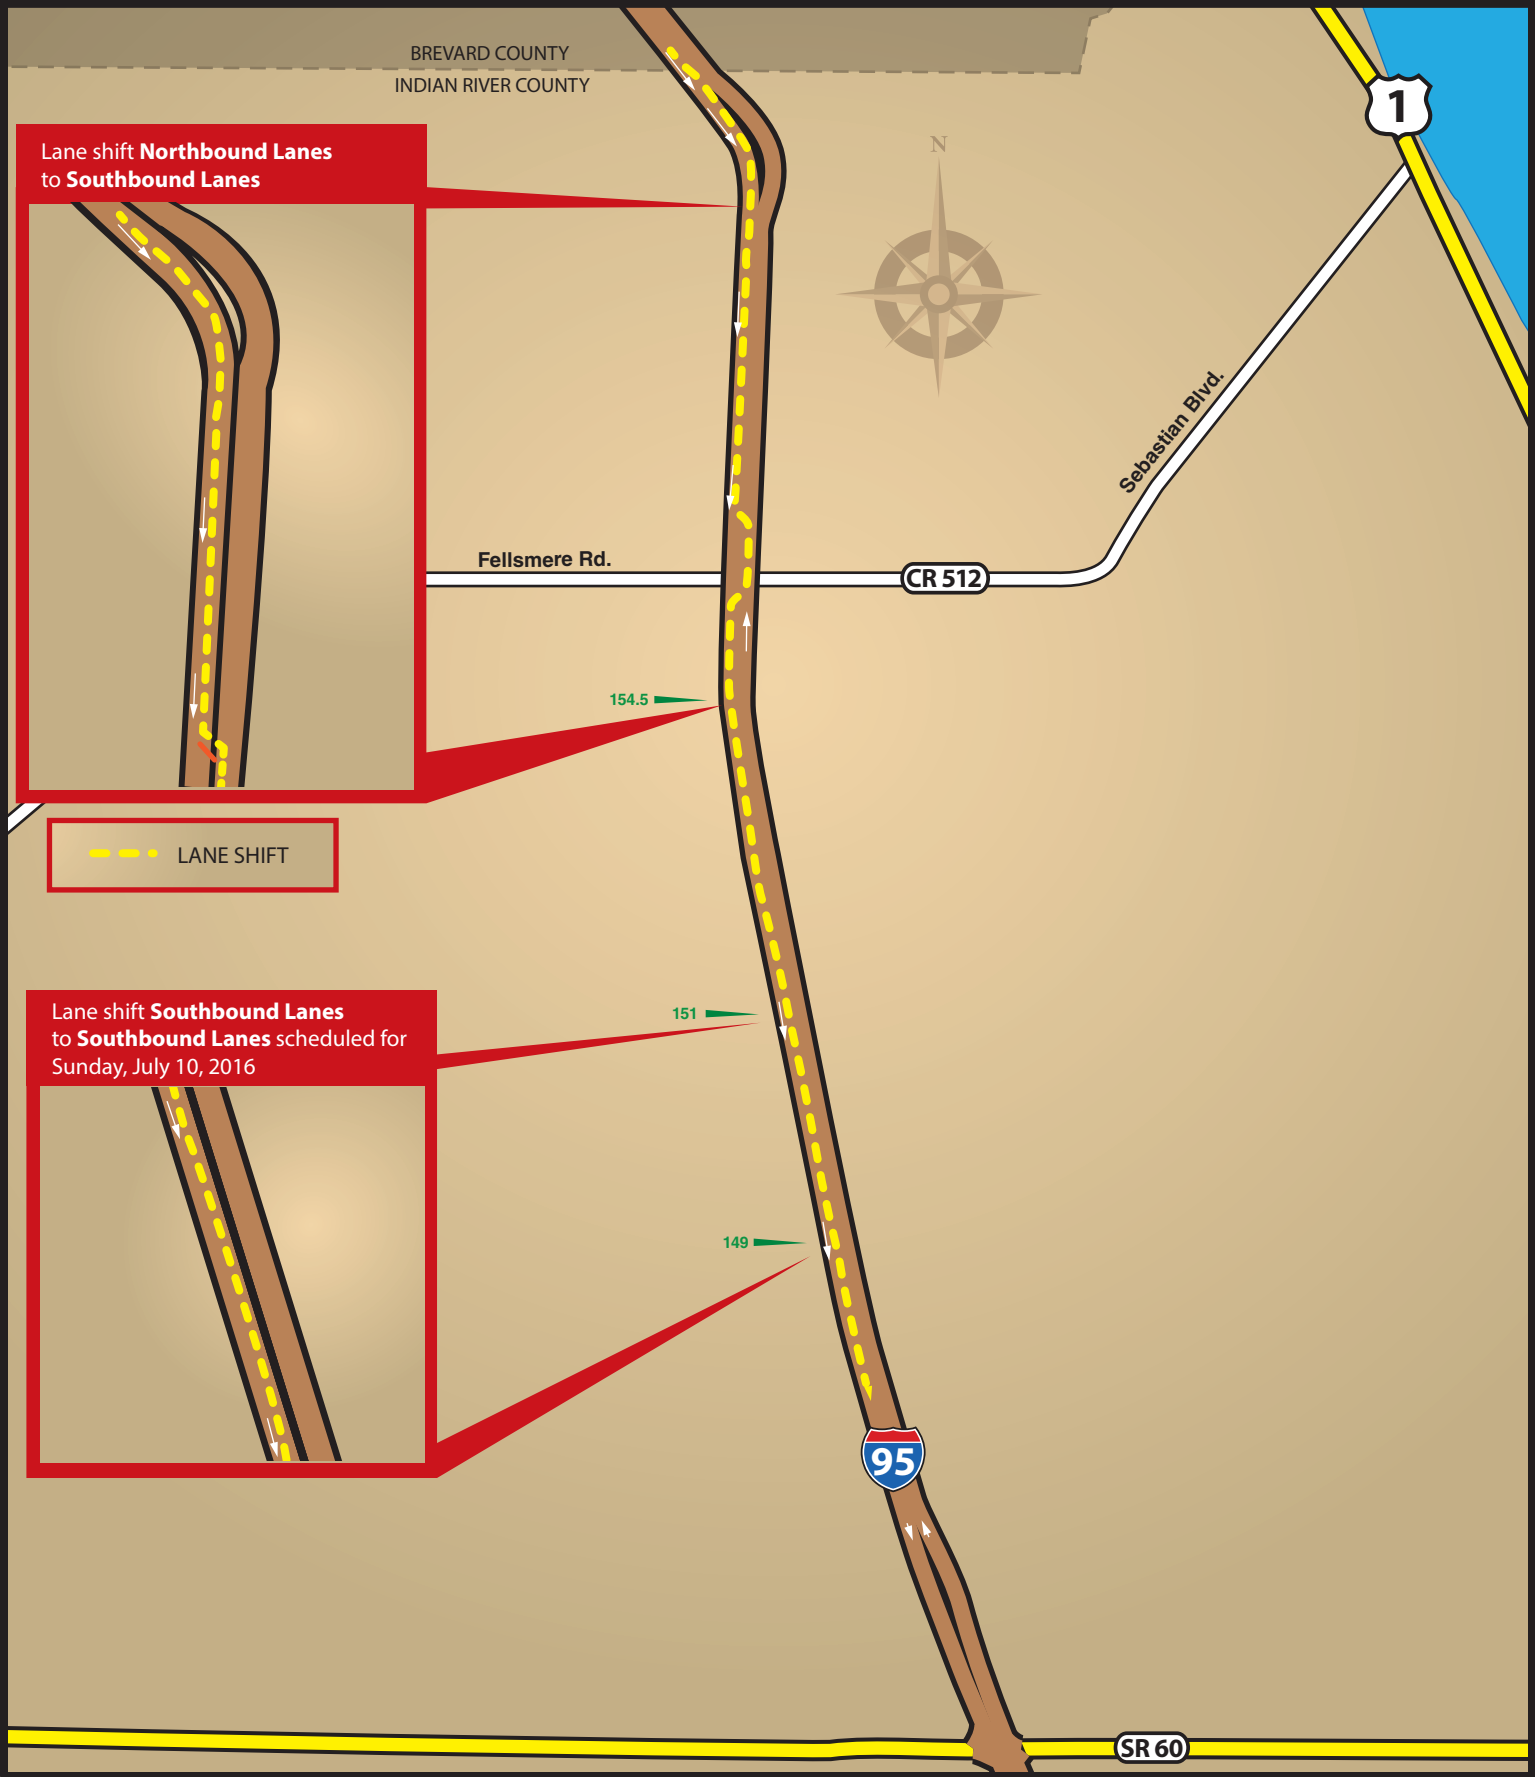

Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. If you need special accommodations under the Americans with Disabilities Act or require translation services (free of charge) please contact Kathleen Dempsey, Project Public Information Officer, prior to the meeting. She can be reached by phone at (772) 359-5118 or email at kdempsey@corradino.com.

Interstate 95 (I-95) Widening Project

from north of SR 60 to the Indian River/Brevard County line
in Indian River County

Lane Switch: Southbound traffic switch to southbound lanes from
MM 149.5 to MM 151.5.

Indrio Road Widening Project

FM#: 230338-4-52-01

INDRIO ROAD WESTBOUND TRAFFIC SHIFT

Westbound traffic on Indrio Road from Spanish Lakes Boulevard to east of Koblebard Road is shifted to the south, utilizing the existing eastbound lane. Both eastbound and westbound traffic are reduced to one lane in each direction. This shift is taking place to facilitate the roadway reconstruction on the north side of Indrio Road.

As a part of this westbound traffic shift, the left-turn lane out of Spanish Lakes Fairways is closed and all motorists leaving the community **MUST** make a right turn onto Indrio Road. Motorists wanting to head eastbound on Indrio Road should head west on Indrio Road and make a U-turn at the opening after the I-95 overpass.

This work is part of the \$23.95 million Indrio Road widening project from west of the I-95 interchange to east of Emerson Avenue (State Road 607). Work on this project includes: reconstructing the existing two-lane Indrio Road to a four-lane, divided highway with a raised median; constructing a 6-foot sidewalk along the south side and a 12-foot-wide multi-purpose trail along the north side of Indrio Road; realigning Spanish Lakes Boulevard to connect with Koblebard Road; reconstructing Koblebard Road from Indrio Road north approximately .5 mile; and installing new highway lighting, signage and signalization. This project is anticipated to be completed in spring 2019.

For more information, please contact Kathleen Dempsey, Project Public Information Officer, at 772-359-5118, kdempsey@corrado.com, or log onto www.d4fdot.com for current project information on FDOT construction in the Treasure Coast.
